Alectro 1RU Logo Contact Panel

Are you proud of your rack? We are now offering rack Logo panels for you to display your companies contact information and logo. Having your contact information easily available for your customers to quickly contact the correct area in your business, saves both you and your client time. Full colour options are available allowing branding of your racks in corporate colours. This service is not limited to 1RU panels and can be customized to your specific requirements, for example shut down and boot procedures or client port access information.

File Specifications

In order to produce a high quality reproduction of your logo, we accept the following file formats:

- EPS
- Adobe Illustrator (AI)
- Corel Draw (CDR)
- All fonts outlined

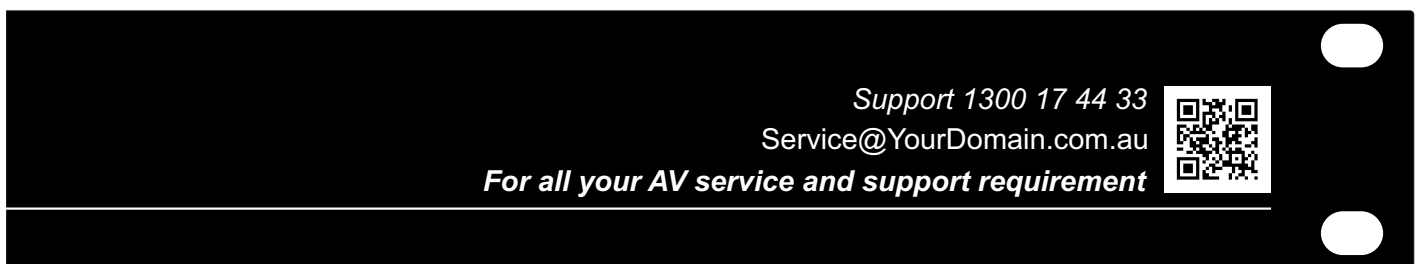

No bitmap image formats
(JPG, TIF, BMP, PNG, etc)

Panel Information

We use one of two techniques when manufacturing your panels, Laser etching if the panels are to be finished in a grey scale finish and flat bed digital printing when coloured graphics are required. Both are a digital printing method that have a sharp, crisp finish that will not rub or chip off.

The relevant text can be configured using your corporate fonts and the use of a QR code allows you to embed addition information for the user. We can configure the QR code to send a service required email or a URL link back to your contact page of your website.

For additional information or to submit your vector file please email us on: Info@alectro.com.au
